Redefine the server
HPE ProLiant Rack and Tower Servers with ClearOS

Lower the cost of building on-premises IT solutions without sacrificing security and ease of use

Does this sound familiar?

• Do you need a new server now? Within the next six months?
• Is your IT staff stretched thin?
• Do you need to reduce IT costs?
• Are you considering a move to the cloud but are worried about retaining security and control?
• Do you need to keep some capabilities in-house due to performance and/or security concerns?
• Could you benefit from advanced IT capabilities, but lack the budget to pursue them?
• Do you need to support remote sites or branch offices with robust IT capabilities?
• Are you having challenges with remote site management?

Smart phone simplicity for your server

Intelligently integrated applications

Completely customizable

Intuitive web-based interface

Point and click application installation

Why HPE ProLiant rack and tower servers

• A complete infrastructure that supports both your business objectives and your business growth
• The power, choice, and flexibility to address your IT challenges with simplicity and cost-effectiveness
• Intel® Xeon® processors offer unparalleled versatility and increased compute performance across diverse workloads

Why HPE ProLiant with ClearOS

Simple

Ease of use provided by an intuitive, web-based user interface plus a built-in ClearOS Marketplace with 100+ applications—and growing

Secure

Peace of mind delivered by a trusted and proven selection of security apps and functions

Affordable

Lower total cost of ownership (TCO) by leveraging open source software; pay only for the apps you need, and pay as you grow1

1 You can choose to have ClearOS preloaded on HPE ProLiant ML110, ML30, and DL20 Servers, or download it via Intelligent Provisioning or from hpe.com/servers/cle aos for all ProLiant ML/DL300 series and below. ClearOS adds no additional costs to your ProLiant server. Optional subscriptions, support, and applications are available.
